# SOIL!!

Noun \_\_\_\_\_ Verb - Present ends in S \_\_\_\_\_ very \_\_\_\_\_ Verb - Present ends in ING \_\_\_\_\_ there are different \_\_\_\_\_ Verb - \_\_\_\_\_

Present ends in S \_\_\_\_\_ of soil like sand soil, \_\_\_\_\_ Noun \_\_\_\_\_ soil, and clay soil and that's not all of them.

Soil is very important in our \_\_\_\_\_ Verb - Present ends in S \_\_\_\_\_. We wouldn't be able to have \_\_\_\_\_ Noun \_\_\_\_\_, oxygen, and \_\_\_\_\_ Noun \_\_\_\_\_. We wouldn't have \_\_\_\_\_ Verb - Present ends in S \_\_\_\_\_ because soil helps cotton grow. We wouldn't have food because we can't plant \_\_\_\_\_ Verb - Present ends in ING \_\_\_\_\_ and if we can't plant anything (grass) we won't have meat to eat.

Soil \_\_\_\_\_ Verb - Present ends in S \_\_\_\_\_ us a lot we wouldn't have \_\_\_\_\_ Noun \_\_\_\_\_. Without soil we would starve to death and without soil animals will starve too.

Noun \_\_\_\_\_ is broken down \_\_\_\_\_ Verb - Present ends in S \_\_\_\_\_ of plants, \_\_\_\_\_ Noun \_\_\_\_\_, and \_\_\_\_\_ Verb - Present ends in \_\_\_\_\_

S \_\_\_\_\_

fossils are in soil to not just rock.

\_\_\_\_\_ has a lot of things in it to help \_\_\_\_\_ grow like nutrients.

Nutrients are like the things that are in our fruits that help us live nutrients help plants grow too.

\_\_\_\_\_ is at the top of the soil \_\_\_\_\_ chart. Topsoil gets the most amount of water  
thats why its the darkest soil. Topsoil usually has the most \_\_\_\_\_.

\_\_\_\_\_ is in the middle of the soil layers chart it is a lighter  
color than \_\_\_\_\_. Subsoil has less roots but it \_\_\_\_\_ more rocks and pieces of rocks.

Plants and roots grow into topsoil tree roots grow into subsoil.

\_\_\_\_\_ is at the bottom of the soil layers chart. Bedrock has more \_\_\_\_\_ than Topsoil and  
Subsoil. The \_\_\_\_\_ in Bedrock are mostly big rocks and those get broken down into pieces.

\_\_\_\_\_ is very \_\_\_\_\_ and it can do more than just grow \_\_\_\_\_.
