17. Noun
18. Verb - Present Ends In Ing
19. Verb - Past Tense
20. Noun - Plural

# dive bar.

the natural phenominon bar had been called the Adjective - Ends in EST for as long as First Name of  
a Person could remember. the last letter on the Adjective sign had adverb past tence out.  
sometime in the era and never been Verb - Past Tense. though he knew the place, had never been  
a Adjective. this was his relative bar. although his relative spent most of his time  
Number for Verb - Present ends in ING. apparently as the Adjective got sent away aor  
Verb - Past Tense, the next generation had taken thier Noun at the bar. because the place was still  
Verb - Present ends in ING, and still Verb - Past Tense with Noun - Plural.
