# Pizza

Pizza was invented by a Adjective Nationality chef named Full Name of a Person. To make a pizza you need to take a lump of Noun and make a thin, round, Adjective Noun. Then you cover it with Adjective sauce, Adjective cheese, and fresh chopped Noun - Plural. Next you have to bake it in a very hot Noun. When it's done cut it into Number Shapes. Some kids like Food pizza best. But mine is Food pizza. If I could I would eat pizza Number times a day!
