# Philosophy

The definition of philosophy is the study of the \_\_\_\_\_ Adjective fundamental nature of knowledge reality and existences. Metaphysics is the section of philosophy that held/asked questions by name of a \_\_\_\_\_ First Name of \_\_\_\_\_ a Person. \_\_\_\_\_ Adjective Greeks were one of the first to make a "true" reality. The second part of \_\_\_\_\_ Adjective philosophy is epistemology, which equals knowledge. Many philosophers were \_\_\_\_\_ Animal. They helped develop the math and science of Greece by going to different places and bringing back the knowledge to the mainland. From there they developed the knowledge and grew it into \_\_\_\_\_ Part of \_\_\_\_\_ Body special. Many of Greek philosophy influenced our society and would out philosophy there would be no \_\_\_\_\_ Adjective math are \_\_\_\_\_ Adjective debates
