# Discovering Pi

Although Pi might be \_\_\_\_\_ Verb - Past Participle by the Jamaicans, I really discovered Pi \_\_\_\_\_ Adverb when i  
looked in the \_\_\_\_\_ Noun to eat some pie. I suddenly had the cravings to measure things. I took a  
\_\_\_\_\_ Noun and started \_\_\_\_\_ Verb - Present Tense the pie I was going to eat. I measured the diameter and the  
\_\_\_\_\_ Noun and got a very very \_\_\_\_\_ Adverb very \_\_\_\_\_ Adjective number; 3.14. I suddenly felt like I  
had to measure every single circular object in the world. As I measured I found that I got the same number every  
time. This was very \_\_\_\_\_ Adjective. I created the formula  $Pi=C/D$ . I am the \_\_\_\_\_ Noun of PI.
