Liesl and John

Once upon a time Liesl and John met at a Adjective Noun. The first thing that Liesl did was Verb - Base Form John. John was so shocked to be Verb - Past Tense by Liesl, that he immediately asked her out on a Noun and Liesl said Exclamation! They went to the Noun and they held Noun - Plural all night. Ever since that day, John has never gotten Liesl out of his Noun. It only took him Number years to give her a Noun.
