10. Part Of Body

Letter from a Ailein

Dear earth dude

I have been looking at your Adjective with my Noun . I have noticed there tons of color stuff on the face of your bob , can you tell me what it is? I have also been wondering what your favorite Noun is? Mine is Noun . The last thing I have been wondering is how old are you? I'm Number years old.

How the technology works here on my Noun is we have these things called sun eaters and they Adverb make electricity. How we talk on phones is we press a button on our Part of Body . Then the person your calling there Part of Body rings until they press there thumb then you can talk to each other. Write back soon.
