laboratory adventures

It was the begining of Laboratory week _____Number_____, and many people from the _____Location_____ Lab were still _____Adjective_____ from the awards dinner that previous friday night.

Karla and her significant other Val were there. As well as Sonia and her _____Adjective_____ husband, party _____Animal_____ Chad had settled down enough to bring his _____Adjective_____ mother. Suzanne made a grand entrance with her sister as her guest, Lisa Emrich took a night to party with her sweet daughter Sam. Lesley Hinkel traded in her gray scrubs for a darling _____color_____ dress.

The food was delicious companionship , good times were had by all. there was a brief discription of all 12 employees of the month. After the awards and presentations the dancing began. There was a photographer there to take photos of individuals as well as groups and the _____Noun - Plural_____ inside the presentation as well. Although not all of the lab could attend we knew they were all there in spirit and in our thoughts as well as our hearts. Without some people staying behind to work the lab the dinner wouldnt have been able to happen thanks for those who worked a bench or picked up an extra shift.
