# A recipe for disaster

Sally and John were hanging out one \_\_\_\_\_ day and decided to make a \_\_\_\_\_ cake. They had to gather the materials before they could begin baking, but they had trouble finding a few of them. Sally had a really \_\_\_\_\_ idea, " \_\_\_\_\_! I have a \_\_\_\_\_ idea! Why don't we just replace a few of the less \_\_\_\_\_ ingredients, like the \_\_\_\_\_?" Sally and John looked through John's \_\_\_\_\_ to find a replacement. They settled on the old \_\_\_\_\_, "This smells very fresh so it must be ok to use!," said John. There also weren't enough \_\_\_\_\_ but John was able to find some smelly \_\_\_\_\_ that were the same color. When their gross creation was finally ready to be put in the oven to bake the entire kitchen was covered in \_\_\_\_\_. When the cake came out, it smelled like \_\_\_\_\_. \_\_\_\_\_ . Sally and John decided to throw the cake away and go to the \_\_\_\_\_ instead.
