34. Time Frame - Six Days Or Two Minutes Etc

A Day in Science Class

TEACHER: Today we are going to dissect a animal. Everyone grab a Noun and sit with a group of at least number. Does anyone have any questions?

George : I do or dont! Do we have to wear these material plural clothing?

TEACHER: yes or no, at all times. Anyone else?

funny nickname : Is it Adjective?

TEACHER: yes or no, don't be Adjective. Lets all wash our plural body part and get started!

You will see a set of sharp Noun - Plural on your desks. Everyone begin!!! Start with a smooth,

Adjective stroke across the body part. Don't emotional verb - cry laugh weep, remember, it's not

alive or dead. I see we have another question...

random last name : There's some color liquid coming out of mine, is that normal?

TEACHER: Perfectly Adjective!!! Remember not to touch your body part or put your

plural body part in your eyes, it is highly contaminated. In fact, I recommend each and every one of you to

have a Adjective hot or cold liquid soak when you get home!!! Now, once you've cut out

the organ of body, place it in a jar and cover it with material. We will send these samples to the

random place - icecream store or courtroom etc in country.

** Noun rings **

TEACHER: I hope you all have a Adjective time, tell your parents to verb!!! See you all in

time frame - six days or two minutes etc!!!
