# Anne of Green Gables

Anne Shirley was an orphaned           Noun           who lived in many different places. In the ends she was always returned to the same           Place          . One day she received a           Noun           telling her that a brother and sister were willing to adopt her. Anne was extremely excited and emediatly packed her           Object           in preparation for the long journey ahead. The           Proper Noun           from the asylum went with her to the train station to drop her off. She was headed to the well know town of Avonlea in           Place                     Place                     Place           where she would live with her new care givers. Her journey would take hours, and "           Proper Noun           " would pick her up from the train station. When she arrived there was no one to pick her up, so she           Verb - Base Form           down outside to wait.
