Mark and Michael's Future

Mark and Michael are very Adjective brothers. They each have Adjective adventures awaiting.

Michael will Verb - Base Form to Cal Poly and there has never been a more rambunctious and rowdy incoming freshman. Hopefully Michael's stunning mind and charm with the ladies will not distract him from studying and graduating. He'll probably graduate in 4 years with a degree in molecular Noun. Mark is working at Cisco starting July 22. He will have many projects and joyfully execute each one. Mark will pay all his own bills and can't come crying home to Mommy anymore. Since he will be making his own income now he can buy plenty of clothes and maybe a new Noun. Who knows where they will be in 10 years, maybe they'll own a business together in Location, or maybe they will be missionaries in Kenya.
