Storytime was one of my favorite lessons to do with the kids. They got into character and
made awesome props. Also, if you love your overburdened co-teacher as I do, it can be a great way to say thanks
for his/her support by letting them do that lesson on his/her solo days taking on more
traditional and cultural lessons in the chapter for yours.
So, whether you use it yourself or lend it to co-teacher, here's a PPT for "YBM Si-sa - Lesson
6 Storytime - Sonogong and Samjang". In some of these PPTs, you'll notice animation and or sound effects
added depending on the version of Powerpoint you're using.
