Tomatoe Mad Lib

The year was 700 AD and high up in the Andes of Peru the Aztec Indians noticed that these _____
red fruits that grew were darn _____. They named this _____ veggie Xitomatle and over
time this became tomatle or tomato and eventually what we know as the tomatoe. How did this _____
fruit make it's way out of Peru? The Spanish _____ carried these plants back to _____.
Italians and Spanish _____ this _____ vegetable and it became a staple in dishes like
_____. The English however had a different view believing the tomatoe to poisonous! Now that hurt the
_____ tomatoes feelings a little bit. A _____ American was the first to grow tomatoes in
America. Who you ask? Thomas Jefferson! America really did _____ the tomatoe. In Louisiana
the creole dishes made the tomatoe into jamabalyas and gumbus. In Maine they added them to more seafood
dishes. But you may have _____ we called the tomatoe both a fruit and vegetable in this
_____ so which is it?! Well if you ask a botanist they'll tell you the tomatoe is a fruit of the nightshade
family but if you ask the supreme court they'll tell you that the tomatoe was declared a vegetable in a supreme
court case, Nix v. Hedden! That's right the _____ had to be settled by the _____
court in the land. Fruit or vegetable I know one thing the tomato is an _____ food!
