DIY Windows Wellness

Hey _____Name of your FTSP_____!

I'm sorry to bother you but I was on my laptop and I ran into an issue that I could use your help with. I already tried rebooting and Googling the error message.

Here is what is happening: When I am in Chrome on the ESPN.com site, whenever I click on the Sign Up! link I get the following error message: You do not have permissions.

If you could help me out, I would really appreciate it. By the way, this is not urgent.

Thanks for helping me out again! I owe you lunch.

Thanks,

Matt
