Safety Glasses

Gone are the days of _____ Adjective safety glasses! Today's styles are light, comfortable and _____ Adjective

! Some even look like fashionable sunglasses with _____ Colour wrap-around frames and _____ Colour

reflective lenses!

Some _____ Noun - Plural may ask, "Why both to wear safety glasses?" The answer is simple: You've only got

_____ Number eyes. Sight, even more than _____ One of our Senses, helps us to get around. It would be much

harder to figure out if something is _____ Size, _____ Shape, _____ Colour or _____ Texture without

our sight!

Eyes have some natural protection, like eyelids, eyelashes, tears and our blink reflex, but that's not always

enough. Hazards like dust, wood shavings, sunlight and flying bits of _____ Name a Toy spitting out from the

mower are common on farms!

Why not pick out a pair of _____ Adjective safety glasses soon? It might be handy to pick up _____ Number

more pairs to keep on hand in case your favourite pair gets broken, scratched or stepped on by a

_____ Kind of Livestock - Singular.

Even though some safety glasses look like sunglasses, their design and lenses provide more protection than a

regular

pair of sunglasses can. Be sure to keep your new safety glasses safe when not in use--a small soft

Colour, Fabric Pattern bag would work great!
