I scream, You Scream, We All Scream for iScorps

Once upon a time, CCP decided to gift a large Noun of to SOMERBlink as a thank you for all their hard Noun in the Noun. There was just one small problem with this: instead of giving these very Adjective ships to Blink (who does indeed do a lot for our community), they did it in secret.

And what is a secret? It is "a piece of Noun that is known by only a small number of Noun - Plural, and is deliberately not told to other people." This is never a good idea when you are running a Noun game. One, people will find out. Two, people will get Adjective.

There was much Noun and fury from the community over the entire situation, which they voiced on forums, Noun - Plural and other social media sites. To an onlooker, it looked like a useless pile of Noun a bunch of people fighting over a dumb Noun with a moderate bonus to ECM. To the ones Verb - Present Tense their opinions, it was a matter of Noun - Plural, Noun - Plural and Noun. The fighting continued for days with no resolution. Everyone thought they were Adverb.

They resorted to name-calling and personal Noun - Plural using very public mediums. It stopped being about who was Adverb and became who was Adjective.

Eventually, it got so Adjective that everyone unsubbed to go play Proper Noun just so they wouldn't have to hear about it anymore. They all became death Noun - Plural and Noun - Plural and spent

all their time Verb - Present Tense instead of flying spaceships.

Then everyone died. The end.
