Only Vishnu Can Judge Me

It was Christmas Eve Year. 2Pac, James Hetfield, Fred Durst, Lil Wayne, and Jay Leno were smoking a roach in Actors Name in Possessive form basement. Female pop star was tied up in the corner, thoroughly loved in violent and forceful way, and the boys were watching a classic: Bad Movie. As the credits began to roll, Pac picked up a Adjective Noun and whipped it across the room at Leno's Body Part. Thoroughly Emotion in Adjective Form, Leno yelled across the room at Pac, "Angry exclamation filled with racial slurs." Lil Wayne tried to calm him down, saying, "Wise proverbial words." "YEAHHHHHHHHHHHHHHH," James yelled in agreement, as he pulled the Noun out of his ass, expelling all the Noun - Plural he had stuffed in there onto the floor. Same pop star as before let out a cry for help. They all laughed and no one was mad anymore. They sang in unison: "Song lyric," and spread James' Adjective fecal matter on her naked body.
