## Cell Phone 1225c2a

On \_\_\_\_\_ DAY \_\_\_\_\_ MONTH \_\_\_\_\_ DATE \_\_\_\_\_, \_\_\_\_\_ YEAR approximately \_\_\_\_\_ TIME \_\_\_\_\_: while performing a \_\_\_\_\_ TOUR OF DUTY \_\_\_\_\_: : tour of duty in a marked New York City Police Department vehicle, I was traveling \_\_\_\_\_ DIRECTION \_\_\_\_\_ in the left lane of St. Nicholas Ave. -which is a four lane northbound/ southbound roadway with two lanes dedicated to the flow of traffic in each direction respectively- south of W175 St, I did observe at a distance of approximately 1/2 a car length a Gray 2005 Lincoln New York State tag# T548694C traveling northbound in the left lane of St. Nicholas Ave. south of W175 St.

I did observe through the front driver side window of vehicle in question a black cell phone in the left hand pressed against the left ear of operator of vehicle in question, engaged in conversation. There were no passengers in vehicle in question.

Without ever losing sight of vehicle in question, I did pull same vehicle over to a safe portion of the roadway through use of both turret lights and siren, and did identify the motorist through a New York State class E license ending in numbers 005. After determining that there were no exigent \_\_\_\_\_ DIRECTION \_\_\_\_\_ which would have allowed for the violation of above offense, I did issue the motorist a summons for above offense.
