Summertime i don't know

I was happy as a Noun . Proper Noun was over and Noun had begun. All my friends had Verb - Past Participle throughout the year. Finally i had some time to myself. I couldn't wait to brush my Noun for hours on end. Or to pick the Noun from under my Noun - Plural only to replace it with Noun . But i knew there was one thing standing between me and true summer Noun . My Noun . They were still Noun and i knew that because i Noun with Noun . Somehow they had Noun the zombie Noun . Yet still they could not get me to eat my Noun . Fools. So i built them a Noun porch. And i set Noun out for them every morning. I did not use Noun of any kind. My parents taught me better than that. Or so i thought. Instead i used a shallow Noun of Noun so they could never Noun . I always knew that they had great Noun scores. So i took their credit cards and bought myself a Noun . Then i Verb - Past Tense a live Noun to keep me company while i cruised in style. Life is Adjective in summertime.
