Treatment Plan

Client's mother presents to initial session at clinic name requesting treatment for her son because of problems with action verb . Mother states that client often throws Noun - Plural at school, shouts words like " exclamation " and " exclamation ", and runs from the school building and goes to Location . Mother states that this problem has been going on for Number unit of time . The problem started when the mother lost her Noun . The son states that it is all the fault of his family member . He says that all he wants to do is go to Location and get Noun - Plural , and that is why he behaves like he does. Mother states that if the the current behavior problems were eliminated, the family would spend much more time Verb - Present ends in ING and playing game or activity . She is requesting help to improve her parenting and also to improve her hobby ending in ING . Client and family strengths include the client's ability to engage with new people, his love of Noun - Plural , and his long history of strong relationship with his mother and Proper Noun - Plural .
