Treatment Plan

Client's mother presents to initial session at <u>time name</u> requesting treatment for her son because of problems with <u>action verb</u>. Mother states that client often throws <u>Noun-Plural</u> at school, shouts words like "<u>exclamation</u>" and "<u>exclamation</u>", and runs from the school building and goes to <u>location</u>. Mother states that this problem has been going on for <u>Number</u> <u>unit of time</u>. The problem started when the mother lost her <u>Noun</u>. The son states that it is all the fault of his <u>family member</u>. He says that all he wants to do is go to <u>location</u> and get <u>Noun</u>. Plural, and that is why he behaves like he does. Mother states that if the the current behavior problems were eliminated, the family would spend much more time <u>Verb-Present ends in POC</u> and playing <u>sume or activity</u>. She is requesting help to improve her parenting and also to improve her <u>hothy endine in POC</u>, Client and family strengths include the client's ability to engage with new people, his love of <u>Noun-Plural</u>, and his long history of strong relationship with his mother and <u>Prover Noun-Plural</u>.
