1. Adverb
-

ffhhththth

The pictures are much, much better! I don't mean to be so nit picky but....

In general:

- 1) Make sure to include a picture for every Adverb item listed
- 2) List the bolded school poster as the last item on every slide for consistency
- 3) There needs to be the same number of items on every slide
- 4) If you list an item as plural, specify how many posters need to be made of that item

Specifically:

Slide 2 - "knick knacks" is a little vague, and I wouldn't know how to make a school poster look like an advertisement poster

3 - what is the difference between a tiki and a tiki pole or between a tiki and a mask?

4 - "architecture" is vague

8 - "knick knacks" and "shallow trees" are vague

9 - skull is a bit creepy, and what does the warning sign(s) say?

10 - be more specific with "animals"

12 - one igloo cut-out? or a rectangular poster with many igloos?

etc.

YOU ARE AWESOME

dont h8 meh
