# Summer

One [Adjective] day my sister and I were talking about summer. We did not like the [Adjective] weather anymore and the [Adjective] snow was starting to pile up. I already built a [Adjective] snowman and had [Adjective] snowball fights. My sister and I were ready for [Adjective] days at the beach. When we go to the beach it gets so [Adjective] that the sand burns my feet. My favorite part is going swimming in the [Adjective] ocean. If the water is [Adjective] you can even see [Adjective] fish swimming below. I wish it was summer tomorrow and then we could spend [Adjective] days at the beach enjoying the [Adjective] sun.
