Worst Date Ever

Wiseau took Lisa to the place and told her she could have anything she wanted. She chose noun related to place. Wiseau is allergic to same noun. He spent the rest of the night sneezing.

Later they went to the coffee shop where he asked her about her Noun. Lisa was offended and thought that he was Adjective. Wiseau didn't notice and offered to take her out to buy a Adjective Noun and then go Verb - Present Tense.

Lisa decided to give him another chance. But while same verb ending in ing he unleashed his favourite Verb - Base Form move the crackilacking kraken. He got so many awkward stares that Lisa decided the date was over.

She didn't regret her decision when he said goodnight by telling her about his Noun. When asked by her friends later on she described her date as being both Adjective and the eye opening the state of the dating world. She would be spending more time with her Noun for now.
