UMEMS Letter

Dearest UMEMS,

On April 1st, I will be stepping down as an FTO with UMEMS. I have had a _____ Adjective and _____ Adjective time working with you all. From patient's with _____ Part of Body injuries, to fixing the ambulance _____ Noun, helping you guys find the _____ Noun, and explaining how to use a meow to find the _____ Part of Body. I have enjoyed working with everyone and had some _____ Adjective experiences throughout my time with UMEMS. For example, one time at TCF I got a call for _____ Odd EMS Call, and when found the patient meowing in a puddle of their own _____ A Liquid, yelling _____ Overused Phrase! at the security staff. Or that time where the Dr. Mossman moved faster than a _____ Animal to get to a patient. Oh, and that time where I witnessed a full cardiac and respiratory arrest, and then you guys did amazing EMT work and kept him alive, with ventilation and compression until we could transport care. Yeah - that got serious, but you did save a life and that deserves props.

I will miss and _____ Verb - Base Form every one of you guys, and leave you in the highly capable and _____ Adjective hands of Nick, Liz, Mark, TBD, and TBD.

With that said, I am still your FTO until April 1st. I do have a few issues I want to address regarding your PCR writing.

1) Please not that _____ Adjective - Ends in EST _____ is not a real chief complaint. If the patient is really suffering from _____ Adjective _____, they need to see a _____ Verb - Base Form _____ doctor right away.

2) If the patient is threatening to _____ Verb - Base Form _____ you, call ALS immediately. Do not throw _____ Noun - Plural _____ at them, as that is illegal.

3) I have decided that crossing out blank areas on the PCR is too difficult. Instead, we will begin _____ Verb - Present ends in ING _____ them, and making sure no blank spaces are left _____ Adjective _____

4) Don't forget to sign the bottom! Otherwise we may get sued for _____ Verb - Present ends in ING _____

5) Don't forget to write the times! Otherwise EMSRB will give us a _____ Adjective _____ grade, and revoke our EMS license, forcing us use the ambulance for _____ Verb - Present ends in ING _____ purposes.

Finally, I found an old inventory form from like five years ago tucked into a trauma bag. You know how much I hate old inventory forms. Our new protocol if you find any old inventory forms is to:

1) Place it in a pile of _____ Noun - Plural _____

2) Douse it in _____ A Liquid _____

3) Add more _____ A Liquid _____ to ensure a total and complete burn

4) Before burning, shred the old forms using a _____ Noun _____ and a _____ Noun _____.

5) Run over the shredded forms with a _____ A Vehicle Type _____, and then, using a _____ A Vehicle Type _____, _____ Verb - Base Form _____ the forms until they are illegible.

6) Using a blow torch, light the inventory on fire and roast until they produce a _____ Adjective _____ smell.

Now that that is out of the way, I will say my goodbyes. It has been a privilege and pleasure working alongside each and every one of you. I will likely continue working alongside you as an EMT, so hopefully it will continue to be a privilege and pleasure.

Best,

Shawn
