# Sad life

Once there was a man who had many Noun - Plural: he had Noun on his Part of Body, he ate food for dessert and he could not get off the computer. One day his computer blew up in his Part of Body so he had to go shopping to get a new one. Once he got to the shop he looked for a computer but there weren't any, so he asked the occupation where they were and he said they blew up too. so the man went home and lived a Adjective life forever onwards.
