# Master Planner

Proper Noun      Planner for all BioTx PS      Adjective      drug substance and drug product manufacturing (internal/external). Utilizing the Clementine \_\_\_\_\_ Noun, captures manufacturing demand, evaluates internal and external manufacturing options, \_\_\_\_\_ Verb - Base Form manufacturing siting decisions, tracks cost and efficiency metrics, and performs continuous improvement \_\_\_\_\_ Noun analysis to reduce time and cost. Serves as single point of accountability with PSTLs, Co-Dev TLs, Supply Chain Coordinators, Supply Chain Packaging & Manufacturing Master Planner, and internal Pilot Plants and LDMs to ensure on-time delivery of clinical supplies to the RUs and BUs.

## Job Duties

Captures clinical supply demand (drug substance and drug product) from PSTLs, Co-Dev Team Leaders, and Supply Chain Coordinators.

Evaluates internal and external manufacturing options and makes data-driven, cost effective sourcing decisions, working closely with the Pilot Plants, LDMs, CMOs, and the Outsourcing group

Tracks cost, time, and efficiency metrics for all \_\_\_\_\_ Adjective clinical manufacturing.

Drives continuous improvement to achieve a 3% year over year cost reduction while maintaining or improving speed and quality.

Works closely with the Supply Chain Coordinators and Packaging & Manufacturing Master Planner to plan efficient delivery dates for bright stock finished vials for Pack/Label Ship.

Fully utilizes the enterprise planning tool Clementine, and drive and sponsor use of Clementine into BioTx PS pilot plants and LDMs.
