# Night Time

The sun go down, and the moon rises. The moon seem to be the fullest all Type of Time ex: year around. The night is windy and Nocturnal Animal hoot. The field of grass move back and forth making it seem as they were dancing. A Nocturnal Animal scatters around finding some food for the night. A crackle of a tree branch startles you, as a Nocturnal Animal howl. The night isn't as quiet as you may have thought.
