12. Verb - Base Form

# Quinn Tilley Mad Lib

I was on a cooking show called           Proper Noun - Plural           cooking show. We were learning to make           food          .

First you need           Number           pounds of           food           and           food          . Then you grab some           food           to go with it. I added some extra stuff like shredded           Noun           and           Noun          . After that, you put the ingredients in a pot and           Verb - Base Form           them together. Then when your done, you put on a           Noun          .

It tasted           Verb - Present ends in S          ! I'm definitely going to           Verb - Base Form           this more often
