These _____ animals, can be found in _____, and are used to make _____ and _____. However most of these are caught out of boredom, and to be shown off in pictures on _____. After I catch the _____ with the use of _____, I will mount it to display in my house. My latest catch is named _____, and is posed in my _____. She was pregnant with _____ babies when I killed her, and could have possibly helped to raise the _____ off the endangered species list. I do not plan to eat the _____ I catch because I personally like _____ much better. But hunting is purely for my enjoyment, not for my survival.
