My dog Ollie

One day, I was out for a walk with my Noun Ollie. Proper Noun is a border collie. He is very Adjective and very Adjective . He is probably the best dog in the whole Noun ! While I was Verb - Present ends in ING with Ollie, we walked past a Noun . I could smell some Adjective bread baking. Ollie could smell it too, because he put his Adjective nose in the Noun and Verb - Past Tense . I decided that Ollie and I both deserved some Adjective bread after our long walk, so I went inside. We bought some Noun to take home, and I'm sure that I Verb - Past Tense Ollie smile.
