Real Situation

I get to the kitchen to start Verb - Present Tense. I set out all of the ingredients for the Noun. I have decided to make turkey and pumpkin pie, because tonight is Noun. I make the food then I need to set the Noun. The drinking glasses go on the right side of the placemats and the butter-plate is on the left side. Then all of the Noun - Plural arrive. And we sit down to have Noun. Then we have Noun Noun and then they leave and I have to Verb up.
