## **Sonnet: To Science**

Science! true of Old Time thou art!
Who alterest all things with thy peeringAdverb
Why preyest thou thus upon the poet's heart,
Vulture, whose are dull realities?
How should he love thee? or how deem thee wise,
Who wouldst not leave him in his wandering
To seek for in the jewelled skies,
Albeit he soared with an undaunted?
Hast thou not dragged Diana from her car,
And driven the from the wood
To seek a shelter in some happier?
Hast thou not torn the Naiad from her flood,
The Elfin from the green grass, and from me
The summer beneath the tamarind tree?
