Why I love my mum!!!

The love or hate my mum is because she is an Adjective job. But I also love her because of her Adjective food, like her ingridient food. She is also really cool because her hair is really Adjective, because it is a Adjective colour. When she's with me, I never get bored, because she does her Adjective talent or hobby. It is so Adjective, all the types of people give her all their Noun - Plural, because they love or hate her so much!!! My mum is so, so Adjective that everyone in planet loves her!!! She feeds me the best foods, like food, food, food and lots of Adjective stuff like that! She is also the best because for my birthday, she got me what I always wanted, a colour Adjective present!

Unlike my family member, who got me a Adjective, Adjective, colour present! Plus, I'm super jealous of my mum, because she has Adjective, colour Part of Body, Adjective, colour Part of Body and a very Adjective, colour accesory! She makes the most Adjective clothes, like that one time, she made me Adjective, Adjective, Adjective accesory!!! But tne main reason I love or hate my mum is because she will always be there for me! Thankyou Mum!!!!
