12. Noun

# State Swimming

Splash! I dive into the Adjective water at the most important meet of the season. I am competing in Marshalltown, Iowa for the state title in the 100 IM. Verb - Present ends in ING through the water I know I will have to get a great time considering I'm going up against some of the best kids in the state.

I can see the the wall just feet in front of my Noun and all it does is makes me want to go even faster. I Verb - Base Form my hand into the touchpad and Adverb look at the Adjective scoreboard.

I then realize I was the first one to finish. I Verb - Base Form the water in excitement and congratulate the other competitors as they finish. "Interjection! I just got first at state!" I think to myself.

I walk up into stands where my exited parents and sisters are sitting. They congratulate me then we go out to eat supper. By the time we get to the doors I am literally starving. I feel like my Noun hasn't had anything to eat days. When we finally receive our food my mouth is watering. When we Adverb finish, we get back into our Adjective car and I fall asleep.

I learned a lot that season of Noun and accomplished one of my many goals. The most important lesson I learned during the whole season that year was to always try my best and to never give up.
