The Party and My Experience

I was at this party for my friend's Event and there was this really Adjective guy Verb ending in ing in the corner, talking with some friends. He came over to me and asked me if I wanted a Noun. I said sure, and he left and came back with a clear liquid. I am pretty sure it was vodka. Anyway, we started talking and he asked if I wanted to Verb with him. I said yes, and we hit the floor. It got pretty intense, and then I started to feel really Emotion. I was Verb ending in ing and holding onto him, when another guy came over and whispered something in his ear. He looked at me and took my hand and led me to the Location. I wasn't sure what was going to happen, but I didn't totally trust him, so I told him I wanted to go back to the party. But he pushed me down onto the Furniture and told me to shut up. I started crying and kicked him in the Body part. He fell and back off and I ran downstairs where my friend found me. She brought me home, and I told her that I felt Adjective. She asked why and I said I kept seeing Adjective Animal plural on the Part of a room/furniture. She told me to go to sleep and left the room. I took off my Piece of clothing and put on my Piece of clothing and laid down on the Furniture and fell asleep. The next morning my head hurt and I kept seeing a Color Scary creature/animal hiding behind the furniture all over the house. I called to my friend and she came running and asked what was wrong. I told her what I saw and she brought me to the doctor. He told me I had drank too much and needed to stay in bed for Duration of time. It's been 1 day so far and I can't wait for it to be over. Then I can go to the Location and go Verb ending in ing which is my favorite thing to do. A little advice... don't Verb with random guys, it will not end well.
