TESTING one two three

Welcome to There Action News. I'm avatar with all the news you will need in 2 minutes. For our lead story we recall a recent interview with the owner of There.com, Michael Wilson, where he told the There Action News team that we now have a new emote that will allow you to slap your own (body part) (Part of Body) Part of Body times with one tic! He also asked what Thereians would like to do celebrate. In response, we have had a number of viewers write in:

(A Thereian friend of yours) tweets "I'm Animal to celebrate this new event by (verb that ends in -ing) a (There vehicle) all night long!".

And (Another Thereian friend of yours) writes "I'm getting a Real Life tattoo of Mr. Wilson eating (favorite food) right here on my (body Noun)".
