## Updating Benefits Information

Patient Third Party profiles can be updated in ePIMS by communicating with Foundations to have the most up-to-date information. It is recommended that a [\_\_\_\_\_ Verb - Base Form \_\_\_\_\_] is performed to ensure the information displayed for the patient is accurate.

1. Select Order Entry (or Alt +N) > search via [\_\_\_\_\_ Noun \_\_\_\_\_]
2. At the Review Patient (tab1) select Edit > select [\_\_\_\_\_ Noun \_\_\_\_\_](tab5)
3. Select Force Pull to bring any new plans that may have been added since recent 24 hours update from Foundations System
4. A pop-up message will display "Patient has been updated"
5. Select OK and all information will have been updated on the patient's third party
