The Noise

It was a dark Adjective stormy day. My mom and I were Verb - Present Tense a movie on the couch.

We heard a Adjective crackling noise and the television suddenly turned off. "What happened?" I asked.

There was no response. "Mom??" Where did she go, I wondered. Then there was a bang. "m--o--m, was that you

?" I stuttered. The Noun - Plural flickered on and off. I saw an image run by. It was much larger than my

mom. I was terrified. I slowly crept down the hallway. "Creak" went the floorboards. I jumped in fright. Then I

tripped over something. "ahh!" I screamed. The lights turned on. "Jack!" It was my pet Noun. "Honey

are you ok?" asked my mom. "I just went in the other room to get a flashlight. I guess we don't need it anymore".

Well at least I know my mom is safe. But boy did that cat scare me!!
