Addy dream

One kind of day addy was so excited to go to Adjective - Ends in EST, she couldn't wait to have the most Noun dream ever! Then her type of family member told her to go to type of family member, so she raced up the stairs and into her PJs. "I'm so excited to go to bed", said addy! Then she closed her eyes and went off to dream land, at least that's what she called it.

Then she was there, "My goodness", said addy. "My pink river is here and so is aaron"! That's here pet Alex. She wanted to scream and shout, then she broke out into song and dance! "I want to scream and shout, and let it all out, like oeoeeo, like oeoeeo". "AHHHHH, I'M SO Adverb!", as she is falling into a pit of food! "I got a feeling that to morning night evening going to be a good morning night evening, that to morning night evening going to be a good good night, hooooo."
