# Light and Sound

Light and sound are all around you. They help you learn and see the \_\_\_\_\_ Noun \_\_\_\_\_. Sounds are made by small movements called \_\_\_\_\_ Noun - Plural \_\_\_\_\_. Sound \_\_\_\_\_ Verb - Base Form \_\_\_\_\_ through air in the form of sound \_\_\_\_\_ Noun - Plural \_\_\_\_\_. Light travels in a similar way, but they move in straight paths called rays. Sometimes light changes directions or becomes distorted. When light bends it is called \_\_\_\_\_ Noun \_\_\_\_\_. When light bounces off a surface it is called \_\_\_\_\_ Noun \_\_\_\_\_. Light and sound send messages to your \_\_\_\_\_ Noun \_\_\_\_\_. They come from many sources. The sun and a \_\_\_\_\_ Noun \_\_\_\_\_ are two sources of light. Your voice and a \_\_\_\_\_ Noun \_\_\_\_\_ are two sources of sound. Did you know that light moves faster than sound? Now you know!
