Ass licking has recently become a \_\_\_\_\_ Noun of mine. I crave ass-licking all the time and boyfriends in the past loved to do it to me cause my ass is really cute and it turned them on cause I liked it so much. Now, my current boyfriend of three years is wonderful but we never explored this. He's the kind of guy who showers and brushes his teeth immediately after sex so I figured he would be totally opposed to licking my ass for sanitation reasons. And I'm not looking for him to hammer my ass with his tongue either. I just like a little rimming and kissing in the ass area. I don't know why but it's such a huge turn on.

Here's the other thing: he wants to explore anal sex. While I've attempted it before with past partners it never worked out. Too painful, etc. I'm willing to give it a try again but I feel that if I'm willing to allow him to shove his huge Tallywhacker up my ass he should be willing to give it a few licks.

So my question is: how do I go about bringing this up or ask him to lick my ass without feeling embarrassed about it?
