# My trip to the Zoo

Today I went to the zoo with my           Noun          . It was so           Adjective          . I was so           Adjective           to see lots of animals like           Noun          ,           Noun           and           Noun          . First we went to the           Noun           exhibit, they were so           Adjective          . At first they were           Verb - Present Tense          , but then the keeper gave them some           Noun           so they           Verb - Past Tense           up. Then we went to the           Noun           tank. They were so           Adjective          , I almost           Verb - Past Tense           away. My sister loved the           Noun          , she said they were           Adjective           and           Adjective          . My favorite was the petting zoo, I could pet           Noun          ,           Noun          , and even a baby           Noun          . I had a lot of fun at the zoo.
