Making Soup

Tonight it's my job to make dinner for my family. I want to make some Adjective soup. First I will make the broth using Noun meat. Then I will Verb some Noun - Plural, Noun - Plural and Noun - Plural. I think it will be the Adjective - Ends in EST soup ever. Maybe I will serve my soup with some garlic Noun. I think that would be Adjective too. I'm so Verb - Past to serve Adjective soup to my family. My little brother hates Noun - Plural though, so maybe he will think it is Adjective.
