Dear Diary.

Dear Diary..

Today was absolutely Adjective. I told Friend Name about what happened and their reaction was Adjective. They said "I don't care what happens to you, we're still Adjective friends."

Also, when I went to Location today, I saw Celebrity Name. I was so Emotion. I went up to them and Adverb asked for a picture. Friend Name was awful at taking the picture though, my eyes look Colour in it and you can't see their Part of Body.

And, to top today off, my Noun finally came in the post! It was really Adjective when I opened it, and it looks so Adjective. Even Friend Name said it looked Adjective.
