Raquel goes to school

It was her first day at Location. She could not Verb - Base Form during that night because she was very excited about her first day.

First Name of a Person woke up late, she jumped out of bed and had a Adjective breakfast and a Adjective shower. She could not believe that she could be late on her first day at school. "

Noun - Plural will be waiting for me", she thought.

She took her Adjective bag that was full of Noun - Plural, Noun - Plural and Noun - Plural and ran the stairs down. She could not wait to meet her new students.

Surprisingly, She arrived to the Location and nobody was there yet so, she decided to tidy and prepare her classroom for her children' arrival...

One hour later she realized that something was wrong. Nobody was at school. It was Sunday!
