Being a Nurse

I always wanted to be a Noun . I love the sense of Verb - Present Tense people. See the Noun - Plural on their faces as they get better. School was a Adjective and Adjective process, but it was totally worth it. I studied Noun , Noun - Plural , and even Noun . The more I Verb - Past Tense the more I felt ready to join the work force. I had to do a semester of internship at the Noun . It was so much Noun ! I worked in the children who had a form of cancer department. It was so great to see how Adjective they all were about life. It was so hard to see them all go, mostly out the door to continue to live their own lives. Hurray!
