# Yule Worries

'Twas the night before Christmas,

And all through the house,

Not a creature was Verb - Base Form

Not even a Noun.

musician is playing softly

You're drinking Noun

The wind is Adjective

Still cold enough for a balaklava.

You're already Adverb about finals

And your GPA

You're fretting over the assignment

And the B- as your current grade.

How badly did my assignment go?

Did I screw up on my presentation?

Did I write 'tortura' instead of 'tortuga'?

When

will I even know????

You need to stop,

Take a Noun

School and finals aren't for a while

You should be thinking about neither

The holidays are a time for family

Not a time for school

teacher is not thinking of grades

She's thinking of yule!

So eat that leftover Noun

Sit back and relax

And to Noun we say

"Imma challah back

!"
