# Making Connections

Hi, my name is           Proper Noun           and I am           Adjective           years old. Someone in my family died, it was my           Noun          . I miss them a lot but what I miss most is           Adjective          . My favorite thing to do with my loved one was           Verb - Base Form          . Whenever I see           Noun          , I think about my loved one. Also, whenever I hear           Noun           or smell           Noun           I remember them. Sometimes I really miss my love one a lot. To remember them, I do           Noun          ,           Noun           and sometimes           Noun          .
